

To whom it may concern:

Creative Joinery Interiors have worked with Craftsmen office Interiors over the last 6 years both as a supplier of Joinery and commercial furniture and Craftsmen becoming our preferred choice in relation to Office Fit Outs, project management and construction.

The most recent project Craftsmen completed for us was an office demolition and Fit Out located at 118 Atkinson St, Oakleigh, Victoria.

Craftsmen are efficiently managed by Ed Cachia and his team and they offer the best attention at all times both during and after a job is completed. Their quality of work is always of the highest standard and work is completed always within the allocated time.

Craftsmen have the relevant experience and employees to always deal with any situation that arises throughout the project they are working on. Their Project Management skills are of the highest standard, especially coordinating contractors and staff to complete allocated jobs as well as an impressive site induction for all staff entering a site.

Throughout our time dealing with Craftsmen we have found them very dedicated to providing an excellent service and quality in their work.

If you would like to discuss this reference any further please do not hesitate to call me anytime on 0418 317 642.
